Highlights for the six months ended 30 June 2016

- We have increased the overall size of our net advances by 5.1% to £1,717.1 million for the six months ended 30 June 2016 (H1 2015: £1,634.0 million), due to the combination of relationships established with new intermediaries, greater penetration with our existing intermediaries and the increase in Insurance Premium Tax.
- EBITDA increased by £11.4 million or 38.8% to £40.8 million in the six months ended 30 June 2016 (H1 2015: £29.4 million). Adjusted post-securitisation EBITDA increased £4.8 million or 16.3%. Turnover growth of 5.5% combined with the positive operating leverage and improved funding costs of the Group is driving this increase.
- Looking at the components of Adjusted post-securitisation EBITDA in more detail:
    - Group turnover increased by £3.4 million, or 5.5%, to £64.8 million for the six months ended 30 June 2016 (H1 2015: £61.4 million). This increase is driven by the growth in net advances and the impact of the IPT increase.
    - Operating expenses decreased by £30.6 million to £22.0 million for the six months ended 30 June 2016 (H1 2015: £52.6 million). This decrease is primarily driven by the write off of £13.2 million of goodwill in the six months ended 30 June 2015, lower transaction costs (£4.1m), securitisation fees (£3.6m) and one-time information technology and change costs (£3.5m), together with a favourable movement from gains/(losses) on foreign exchange of £6.6m .

- Securitisation interest expense decreased by £1.0 million, or 10.6%, to £8.4 million for the six months ended 30 June 2016 (H1 2015: £9.4 million) as we extended and amended the terms of our securitisation facility in July 2015; with effect from 16 June 2016, the facility has been increased from £1.05 billion to £1.25 billion, with £100 million of this increase provided by RBS entering the facility.

Highlights for the quarter ended 30 June 2016

- We have increased the overall size of our net advances by 4.2% to £883.1 million for the quarter ended 30 June 2016 (Q2 2015: £847.6 million), due to the combination of relationships established with new intermediaries, greater penetration with our existing intermediaries and the increase in Insurance Premium Tax.
- EBITDA increased by £4.6 million or 28.2% to £20.9 million in the quarter ended 30 June 2016 (Q2 2015: £16.3 million). Adjusted post-securitisation EBITDA increased £2.6 million or 17.3%. Turnover growth of 6.8% combined with the positive operating leverage of the Group and improved funding costs is driving this increase.
- Looking at the components of Adjusted post-securitisation EBITDA in more detail:
  - Group turnover increased by £2.1 million, or 6.8%, to £33.1 million for the quarter ended 30 June 2016 (Q2 2015: £31.0 million). This increase is driven by the growth in net advances and the impact of the IPT increase.
  - Operating expenses decreased by £5.5 million to £10.9 million for the quarter ended 30 June 2016 (Q2 2015: £16.4 million). This decrease is primarily driven by lower one-time information technology and change costs (£2.4m), together with a favourable movement from gains/(losses) on foreign exchange of £3.4m.
  - Securitisation interest expense decreased by £0.5 million, or 10.6%, to £4.2 million for the quarter ended 30 June 2016 (Q2 2015: £4.7 million) as we extended and amended the terms of our securitisation facility in July 2015; with effect from 16 June 2016, the facility has been increased from £1.05 billion to £1.25 billion, with £100 million of this increase provided by RBS entering the facility.

Tom Woolgrove, Chief Executive, commenting on the results said:

"The Group has continued to deliver another strong financial performance in the first half of 2016, with Adjusted Pro Forma Post Securitisation EBITDA of £34.2 million, an increase of 16.3% year on year. The business also increased the securitisation facility by £200 million to £1.25 billion in the second quarter to support continued growth, with RBS entering the facility. Operationally, we launched our new loan administration system to replace our legacy system with a more modern and flexible solution. The new system initially provides the same functionality as the old system but on a modern platform that will enable us to build enhancements that will improve our customer experience."

Basis of Preparation

The Group converted from presenting its financial statements under UK GAAP to IFRS in 2015, and prepared the Annual Report and Financial Statements for 2015 under IFRS. The financial information contained in this report has been prepared under IFRS, which includes a restatement of the 2015 results to IFRS. For the six months and quarter ended 30 June 2015, a reconciliation of the Profit before tax and EBITDA as previously presented under UK GAAP and the restated results under IFRS is shown on page 17.

Use of Non-IFRS Financial Measures

Turnover

Turnover represents interest income and net fee and commission income. Turnover is not specifically defined under, or presented in accordance with, IFRS or any other generally accepted accounting principles and you should not consider it as an alternative to Total income for the period or any other performance measures derived in accordance with IFRS.

EBITDA

EBITDA-based measures are non-IFRS measures. The Group uses EBITDA-based measures as internal measures of performance to benchmark and compare performance, both between its own operations and as against other companies. EBITDA-based measures are measures used by the Group, together with measures of performance under IFRS, to compare the relative performance of operations in planning, budgeting and reviewing the performances of various businesses. The Group believes EBITDA-based measures are useful and commonly used measures of financial performance in addition to operating profit and other profitability measures under IFRS because they facilitate operating performance comparisons from period to period and company to company. By eliminating potential differences in results of operations between periods or companies caused by factors such as depreciation and amortisation methods, financing and capital structures, taxation positions or regimes and exceptional items, the Group believes EBITDA-based measures can provide a useful additional basis for comparing the current performance of the underlying operations being evaluated. For these reasons, the Group believes EBITDA-based measures and similar measures are regularly used by the investment community as a means of comparison of companies in the Group's industry. Different companies and analysts may calculate EBITDA-based measures differently, so making comparisons among companies on this basis should be done very carefully. EBITDA-based measures are not measures of performance under IFRS and should not be considered in isolation or construed as substitutes for operating profit or net profit as an indicator of the Group's operations in accordance with IFRS.

EBITDA represents profit for the period before taxation, interest payable and similar charges, depreciation and amortisation, goodwill amortisation and amortisation of Securitisation Facility refinancing fees. EBITDA is not specifically defined under, or presented in accordance with, IFRS or any other generally accepted accounting principles and you should not consider it as an alternative to profit for the period or any other performance measures derived in accordance with IFRS.

Adjusted EBITDA represents EBITDA as adjusted for certain transaction costs, pro forma standalone expenses and one-time information technology and other expenses identified in the tables on page 11. In evaluating Adjusted EBITDA, we encourage you to evaluate each adjustment and the reasons we consider it appropriate as a method of supplemental analysis. You should be aware that, as an analytical tool, Adjusted EBITDA is subject to all of the limitations applicable to EBITDA. You should be aware that we may incur expenses similar to the adjustments in this presentation in the future and that certain of these items could be considered recurring in nature. Our presentation of Adjusted EBITDA should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

Use of Non-IFRS Financial Measures (continued)

Adjusted EBITDA Margin represents Adjusted EBITDA divided by turnover.

Adjusted Post-Securitisation EBITDA represents Adjusted EBITDA as adjusted to exclude any add-back to profit for the period before taxation of interest expense related to the Securitisation Facility. In evaluating Adjusted Post-Securitisation EBITDA, we encourage you to evaluate each adjustment and the reasons we consider it appropriate as a method of supplemental analysis. You should be aware that, as an analytical tool, Adjusted Post-Securitisation EBITDA is subject to all of the limitations applicable to EBITDA and Adjusted EBITDA.

Adjusted Post-Securitisation EBITDA Margin represents Adjusted Post Securitisation EBITDA divided by turnover.

Cash conversion represents EBITDA less capital expenditure as a percentage of EBITDA.

Other

In addition to EBITDA-based measures, the Group has included other non-IFRS financial measures in this report, some of which the Group refers to as “key performance indicators”. The Group believes that it is useful to include these non-IFRS measures as they are used by the Group for internal performance analysis and the presentation by its business divisions of these measures facilitates comparability with other companies in the Group’s industry, although the Group’s measures may not be comparable with similar measurements presented by other companies. These other non-IFRS measures should not be considered in isolation or construed as a substitute for IFRS measures in accordance with IFRS.

Pro forma net debt (excluding securitisation) represents pro forma total corporate borrowings less cash on the balance sheet excluding SPV cash from the Securitisation Facility (“PCL Cash”).

Pro forma cash interest expense represents cash interest expense excluding interest payable to SPV under the Securitisation Facility and certain associated interest rate hedges. Pro forma cash interest expense (excluding securitisation), has been presented for illustrative purposes only and does not purport to represent what our interest expense would have actually been had the issue of the Notes occurred on the date assumed, nor does it purport to project our interest expenses for any period or our financial condition at any future date.

Management Discussion and Analysis – Business Review

Principal Activities

We believe we are the leading independent provider of insurance premium and other service fees advances in the UK and Ireland, excluding insurers and independent brokers. We believe we accounted for a majority of total Net Advances excluding advances made by insurers and independent brokers. For the year ended 31 December 2015, the company had 2.2 million customers and achieved gross advances of £3.4 billion, processing 29.3 million direct debits.

The company's principal objective is to provide the best service to its customers and its partners by providing efficient, profitable and successful business solutions. The company aims to achieve sustainable organic growth through offering new products and utilising new technologies, deepening its intermediary relationships and developing opportunities in new markets.

Our results are largely driven by the size of our advances portfolio, the margin between the interest rate at which we make our advances and our cost of borrowing the funds for our advances, our ability to collect amounts due under the advances we make, and, to a lesser extent, our administrative and overhead costs. Our loss rates have historically been low and generally have not had a significant impact on our results. The size of our advances portfolio is primarily driven by our relationships with intermediaries, competition in the insurance premium and service fees market in which we operate, demand for insurance and other services, and the availability of funds for the advances.

Leadership

In December 2015, we bade farewell to Andrew Doman, our former Chief Executive. We wish him well and thank him for his contribution in developing the business during his term in office. Andrew was succeeded as Chief Executive by Thomas Woolgrove in January 2016. Tom's background in both banking and insurance will provide the industry expertise to steer the Group on the next phase of our journey.

We also welcomed David Young to the Board in January 2016 as an independent Non-executive director. David brings to the Board a wealth of experience in investment banking, together with expertise in wider corporate governance and risk management, all within Prudential Regulation Authority (PRA)/Financial Conduct Authority (FCA) regulated and directly supervised environments.

Market

The premium finance market continues to develop and evolve. We continue to see consolidation amongst insurance brokers, whilst technology and regulation continue to shape both ourselves and our partners. More widely, we continue to see new payment service providers coming to market. The low interest rate environment seems set to continue.

Funding

With effect from 16 June 2016, the securitisation facility has been increased from £1.05 billion to £1.25 billion, with £100 million of this increase provided by RBS entering the facility. The increased facility will provide the additional funding required as we continue to grow our business, whilst the inclusion of RBS in the facility further diversifies our sources of funding.

Management Discussion and Analysis – Business Review (continued)

Risks

The Company is predominantly exposed to Credit risk and Liquidity risk, arising from our lending portfolio and external funding respectively. Given much of our lending is on a recourse basis, underlying Credit experience continues to be positive. Our securitisation programme enables us to access sustainable funding. The Board oversees our risk exposure through a series of risk appetite statements around each of our principal and secondary risks. A full description of the principal risks facing the business, together with how they are managed, are set out in our latest Annual Report and Financial Statements. We believe there have been no material changes to these risks in this financial period.

Regulatory Landscape

On 1 April 2014, the regulation of Consumer Credit firms moved from the Office of Fair Trading to the Financial Conduct Authority. With effect from 1 April 2014, the Group's principal trading subsidiary, Premium Credit Limited, was given interim permission by the FCA. In May 2015, we submitted an application for full authorisation to conduct regulated consumer credit business. The application process is still ongoing. Meanwhile, the Board and Executive Committee continue to invest considerable resources to ensure the conduct of our business is in compliance with the principles and spirit of the regulatory environment within which is operates.

Technology

As part of our commitment to improving our technologies, we've been working on replacing our legacy system with a more modern and flexible solution. The new loan administration system; launched in July 2016, initially provides the same functionality as the old system but on a modern platform that will enable us to build enhancements that will improve our customer experience.

Ratio of Adjusted Post-Securitisation EBITDA to cash interest expense (excluding securitisation) …………………………………………………………………………	5.4x	4.3x	1.1x

a. Net debt (excluding securitisation) represents gross debt less cash & cash equivalents as of the last day of the mentioned period.

Net Debt

Net debt (excluding securitisation) of £126.3 million represents pro forma total corporate borrowings (Senior Notes) of £189.4 million, less £63.1 million of Cash & Cash equivalents (which includes £10.0 million cash held in the SPV) as of 30 June 2016. This shows a decrease of £26.9 million, against £153.2 million as of 30 June 2015 due to an increase in Cash of £26.9 million.

The net debt to Adjusted Post-Securitisation EBITDA ratio improved to 1.8x for the period ended 30 June 2016 from 2.7x for the period ended 30 June 2015, due to a 25.0%, or £14.3 million, increase in Adjusted Post-Securitisation EBITDA (Last 12 months) and the pro forma net debt decreasing by £26.9 million as noted above.

Cash interest expense represents cash interest expense, excluding interest payable to SPV under the Securitisation Facility and associated interest rate hedges. Pro forma cash interest expense for the twelve months ended 30 June 2016 was at £13.3 million which is the interest payable on the bond.

The cash interest expense to Adjusted Post-Securitisation EBITDA ratio improved to 5.4x for twelve months ended 30 June 2016 against 4.3x for the twelve months ended 30 June 2015 driven by the increase in Adjusted Post-Securitisation EBITDA (Last 12 months).

Consolidated Balance Sheet (continued)

1. Intangible Assets

Intangible assets consist of capitalised software costs of £9.6 million as at 30 June 2016, up £7.0 million from 30 June 2015 relating to internally generated software. Intangible assets reflect our investment in our infrastructure to improve customer journeys and enhance the quality of information available to the business.

2. Tangible Assets

Tangible fixed assets are stated at cost less accumulated depreciation and any provision for impairment in value. Cost includes the original purchase price of the asset and the costs attributable to bringing the asset to its working condition for its intended use. All tangible fixed assets are depreciated on a straight-line basis by reference to their estimated useful life. Leasehold assets are written off over the period of the lease. Tangible assets were at a net cost of £2.8 million as at the 30 June 2016 (3.1 million as at 30 June 2015). The decrease of £0.3 million is driven by the depreciation charge in the period, partially offset by additions relating to upgrades and investments to our existing information technology infrastructure platform.

3. Debtors

Debtors consist of trade debtors after deduction of provision for irrecoverable debts, unearned income and prepayments. The debtor balance as of 30 June 2016 was at £1,452.0 million (30 June 2015: £1,371.7 million) of which £1,450.5 million was current (30 June 2015: £1,371.2 million) and £1.5 million non-current (30 June 2015: £0.5 million). At 30 June 2016, loans and advance to customers were £1,443.0 million (30 June 2015: £1,365.6 million) and prepayments and other assets £9.0 million (30 June 2015: £6.1 million). The increase in debtors is primarily due to the increase in loans and advances to customers which has been driven by the increase in net advances.

4. Cash at Bank and in Hand

Cash at bank and in hand of £64.4 million represents SPV cash from the Securitisation Facility of £11.4 million (which includes £1.4 million of other servicing fees/interest and £10.0 million of liquidity reserve) and cash held outside the SPV of £53.0 million as at 30 June 2016, against £41.8 million as at 30 June 2015 represented by SPV cash of £13.4 million (which includes £3.6 million of prefunding, £2.0 million of other servicing fees/interest, £7.8 million of liquidity reserve) and cash held outside the SPV of £28.4 million.

5. Debt securities in issue

Debt securities in issue consist of Securitisation Notes of £954.5 million (net of £2.4 million of set up costs) and Senior Notes for £189.4 million as at 30 June 2016 which are stated as £182.5 million after netting the unamortised bond set up costs of £6.9 million. The Securitisation notes relate to external funding provided to the group through a Special Purpose Vehicle (SPV), PCL Funding I Limited. The SPV has a Sterling denominated term note, which is fixed up to 25th September 2018, and a Sterling denominated Variable Note Issuance Programme in place. The notes are repaid or issued as the underlying assets decrease or increase. The note holders receive interest and receive or pay principal on a weekly basis. The drawdown amount on the Securitisation facility was at £956.9 million as at 30 June 2016, against £895.5 million as at 30 June 2015. The upward movement of £61.4 million primarily relates to the movements in the underlying assets.

Consolidated Balance Sheet (continued)

6. Trade creditors

Trade creditors of £389.9 million as of 30 June 2016 decreased £3.5 million from £393.4 million as at 30 June 2015. Trade creditors relates primarily to premiums payable to producers.

7. Amount owed to related parties

The amounts owed to related parties as at 30 June 2016 of £10.8 million and 30 June 2015 of £9.5 million represent amounts owed to Pomegranate Acquisitions Limited. The balance as at 30 June 2016 consists of expenses borne by Pomegranate Acquisitions on behalf of the Group and interest transferred from Mizzen Topco S.C.A. as part of the Cinven acquisition

8. Accruals and deferred income

Accruals and deferred income balance as of 30 June 2016 was £15.7 million, which increased by £2.6 million from £13.1 million as of 30 June 2015. This increase relates primarily to additional overhead accruals driven by the growing business, which includes ongoing consultancy work and investment in software development.

Consolidated Cash Flow Statement (continued)

Cash inflow/(outflow) from operating activities

Cash inflow from operating activities for the six months was in line with the prior year period at £19.0 million inflow for the six months ended 30 June 2016 (H1 2015: inflow £19.0 million), with the growth and increasing profitability of the business offset by increasing working capital balances.

Cash outflow from operating activities for the quarter increased by £2.5 million to £49.4 million outflow for the quarter ended 30 June 2016 (Q2 2015: outflow £51.9 million), with the growth and increasing profitability of the business offset by increasing working capital balances.

Cash inflow/(outflow) from investing activities

Cash outflow from investing activities for the six months ended 30 June 2016 was at £5.4 million, which is £4.2 million higher than the six months ended 30 June 2015. The outflow in both periods represents capital spending, which has primarily increased due to investment in our infrastructure to improve customer journeys and enhance the quality of information available to the business.

Cash outflow from investing activities for the quarter ended 30 June 2016 was at £2.5 million, which is £2.2 million higher than the quarter ended 30 June 2015. The outflow in both quarters represents capital spending, which has primarily increased due to investment in our infrastructure to improve customer journeys and enhance the quality of information available to the business.

Cash inflow/(outflow) from financing activities

Cash inflow from financing activities increased by £33.5 million, from an outflow of £32.4 million for the six months ended 30 June 2015 to an inflow of £1.1 million for the six months ended 30 June 2016. The primary driver is the increase in the amount drawn down on the securitisation facility in the first half of 2016 compared to the first half of 2015, together with the repayment of £10.6 million of the loan notes in the first half of 2015.

Cash inflow from financing activities decreased by £14.8 million, from an inflow of £53.7 million for the quarter ended 30 June 2015 to £38.9 million for the quarter ended 30 June 2016. The primary driver is a decrease in the amount drawn down on the securitisation facility in the second quarter of 2016 compared to the second quarter of 2015

The Group converted from presenting its financial statements under UK GAAP to IFRS for the 2015 Consolidated Financial Statements and this report has been prepared on an IFRS basis. Financial Information presented in the Condensed Consolidated Information issued in August 2015 for the quarter and six months ended 30 June 2015 was prepared under UK GAAP. To assist the users of this information, the above tables provide a reconciliation of Profit/(loss) before taxation and EBITDA for the quarter and six months ended 30 June 2015 under the two standards.

For the six months ended 30 June 2015 the change from UK GAAP to IFRS resulted in a reduction of £12.0 million in the Profit/(loss) before taxation and no change to EBITDA. The difference in Profit/(loss) before taxation is primarily due to goodwill. Both the goodwill amortisation and write off are added back as part of the EBITDA calculation and therefore have no impact upon the Group's EBITDA.

For the quarter ended 30 June 2015 the change from UK GAAP to IFRS resulted in an increase of £1.5 million in the Profit/(loss) before taxation and a decrease in EBITDA of £0.1 million. The difference in Profit/(loss) before taxation is primarily due to the loss on revaluation of interest rate swap and amortisation of goodwill. Both the goodwill amortisation and interest rate swap revaluation impact are added back as part of the EBITDA calculation and therefore have no impact upon the Group's EBITDA.

Description of Certain Financing Arrangements

1. Securitisation Facility

Premium Credit Limited ("PCL") entered into a series of agreements on October 31, 2012 (the "Securitisation Closing Date"), as amended from time to time thereafter, to establish a securitisation facility (the "Securitisation Facility") backed by amounts owing to PCL by its customers ("Receivables") in respect of certain insurance premium and service fee payment products.

General overview

Pursuant to the Securitisation Facility, certain Receivables and any related rights (the "Securitised Assets") are sold and assigned to an SPV, a special purpose vehicle established for the purposes of the Securitisation Facility.

The SPV funds its purchase of the Securitised Assets with the proceeds from the issuance of Term Notes and Variable Notes (together, the "Securitisation Notes") to certain bank lenders (the "Securitisation Note Purchasers") pursuant to a note purchase agreement. Following an amendment on 16 June 2016, the Securitisation Facility (if fully drawn) now has an aggregate limit of £1.25 billion consisting of Term Notes with outstanding note balance of £400 million and VFNs have a note balance of £850 million. The final legal maturity date of the Securitisation Notes falls in September 2018. As security for the payment of its obligations in respect of the Securitisation Notes, the SPV has granted security over all of its assets including all of its rights in the Securitised Assets and the SPV Accounts (as defined below).

Description of Certain Financing Arrangements (continued)

PCL (acting in its capacity as the "Servicer") provides certain collection, administration and reporting services in relation to the Securitised Assets and certain cash management and bank account operation services.

The cash flows generated by the Securitised Assets (the "Collections") are initially collected in bank accounts held by PCL (the "Collection Accounts") and, on a daily basis, the amounts standing to the credit of the Collection Accounts are transferred into accounts held by the SPV (the "SPV Accounts"). On a weekly basis, the SPV (or the Servicer on its behalf) then applies the amounts standing to the credit of the SPV Accounts pursuant to a priority of payments waterfall, to pay or provide for the payment of any interest, principal, fees and other amounts that are due and payable on such date, with any surplus Collections being repaid to PCL as deferred purchase price.

2. Senior Notes

The issuer of the 7% Senior Notes is the group company Mizzen Bondco Ltd, an exempted company incorporated with limited liability under the laws of the Cayman Islands. 7% Senior Notes totalling £200 million in aggregate were issued on 8th May 2014 (the "Notes), with a maturity date of 1st May 2021. On February 27, 2015, £10.6 million of the Senior Notes were redeemed at a premium of 7%.

The Notes are fully and unconditionally guaranteed on a senior basis by the Parent Guarantor and the Subsidiary Guarantor.

Selected notes to the financial statements

1. General information

The condensed financial statements for the six months ended 30 June 2016 and for the six months ended 30 June 2015 have not been audited, as defined in section 434 of the Companies Act 2006.

Mizzen Mezzco Limited ("the Company"), and its subsidiaries (together "the Group"), is a financial services group specialising in funding and payment processing solutions. The Company is incorporated and domiciled in the UK. The Group has a branch in Ireland.

2. Accounting policies

The Group prepares its annual account financial statements in accordance with International Financial Reporting Standards (IFRS) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) of the International Accounting Standards Board (IASB) as endorsed by the European Union (EU), and those parts of the Companies Act 2006 applicable to companies reporting under IFRS.

The condensed interim financial statements have been prepared on the basis of the accounting policies set out in the Annual Report and Financial Statements of the Group for the year ending 31 December 2015, with the exception of income tax which is accrued based on the estimated average annual effective tax rate for the year. .

Going concern basis

The Group has a strong diversified funding base through the issue in 2014 of a high yield corporate bond to professional investors and a securitisation facility through a subsidiary entity that is ultimately controlled by the Company. The securitisation facility has been increased £0.2 billion to £1.25 billion in the June 2016.

Accordingly, the Directors have assessed the Group's cashflow forecasts and are satisfied that the Group has adequate resources to continue operations for the foreseeable future and thus the financial statements have been prepared on a going concern basis.
